Treatment-held-out evaluation: test stimuli never appear in training
① Acquisition
HUVEC well, 4 sites
Channels:
6 / 3 / 2 ch
② Representation
(a) Released 128-d embedding
(b) Raw image → MobileNetV3-Small
③ Classifier
4 functional groups + confidence
(6 KB Logistic / XGBoost)
④ Reliability controls
Replicate-well aggregation
Plate centering
Confidence τ
⑤ Decision
Accept: report group
Defer: re-measure with more wells
Defer → acquire additional replicate wells
